

## **SENIOR PRODUCTION TECHNICIAN**

### **About XSENSOR Technology Corporation**

Creating excellent products and satisfied customers is our top priority at XSENSOR. Since 1994 we have delivered innovative products that use pressure imaging technology to improve the comfort, safety and performance of surfaces. Superior products ensure XSENSOR is continually identified as the leader in the markets we serve, including the automotive, health care and sleep industries. [xsensor.com](http://xsensor.com)

### **Job Description**

In support of XSENSOR's manufacturing group, the Senior Production Technician is a key member of the team. You will provide all aspects of New Product Introduction support for our new products.

Your job focus will be to effectively and efficiently produce in-house sub-assemblies for our sensors, using our specialized laser cutting processing equipment, as well as other production equipment.

Production Technician Job Duties:

- Act as lead technician in production of high resolution industrial sensor sub-assemblies
- Achieve production targets with high quality
- Contribute to further improve our existing customized manufacturing processes

### **Work Experience and Skills**

- Excellent hands-on abilities, demonstrated superior technical craft skills
- Experience in a manufacturing/production environment:
  - Manufacturing methods and procedures
  - Good understanding of material properties
  - Use of specialized process equipment
  - Manufacturing quality systems (QC methods, following specifications, CAR/PAR process)
  - Introduction of new products to production
- CAD, NC programming experience would be an asset

## **Accountabilities**

- Reports directly to Production Manager
- Achieve high product and process quality of fabricated parts
- Contribute to a safe, clean and organized work environment

## **Education**

- Technical diploma - (preferably with a focus on manufacturing)

## **Personal Characteristics**

- Well organized with exceptional attention to detail and quality
- Good communication skills
- Demonstrated ability to work effectively in a team environment

## **Work Conditions or Unique Requirements**

- Ability to lift or carry 30 lbs
- May be required to perform other duties, depending on the needs of the company

## **Compensation**

- Hourly

XSENSOR offers a challenging work environment, close proximity to the C-Train, competitive salaries as well as a complete range of benefits. If you are interested in becoming part of a successful company, learning about unique products and being part of a dynamic team, send your resume to:
